Bell Phone 24-R

100 Acres

MENTOR NURSERIES

Our nurseries are located at Mentor, Ohio, $1\frac{1}{2}$ miles west of Painesville, Ohio, and $2\frac{1}{2}$ miles east of Mentor, Ohio. Stop 67, one mile north of The Cleveland, Painesville & Ashtabula Electric Railway.

Our nurseries are devoted entirely to the growing of High Grade Nursery Stock, including a large variety of choice and rare varieties, not common to the general trade.

We wish to call special attention to the fact that our trees are frequently transplanted and grown at suitable distances apart, so as to allow the plants to develop a good root system and have a corresponding weight to the height, insuring well proportioned plants.

Shipping season generally opens about March 1st in Spring and September 1st in Fall, except for Coniferous stock which we ship from the first of August until the first of October.

INSPECTION AND FUMIGATION. Our stock is regularly inspected by the authorized agents of Ohio, Department of Nursery and Orchard Inspection, and all plants susceptible to the attacks of insects are thoroughly fumigated before shipment, in accordance with the laws of the State of Ohio.

TERMS AND CONDITIONS.

ORDERS. All orders are accepted subject to the conditions below: Write plainly, giving explicit directions as to mode of shipment. Address all communications to Mentor Nurseries, Mentor, Ohio, M. H. Horvath, Prop.

All claims for error must be made within six days after receipt of stock to receive any consideration.

We guarantee to have all stock in good condition when it leaves our premises, but we do not guarantee our stock to live. We are exercising the best of care in handling our stock and our responsibility ceases when delivery is made to Carriers. If the stock does not reach its destination in reasonable time, owing to delay in transit, it should be examined upon receipt and claim made at once on the Transportation Company if condition of stock is found doubtful.

PRICES quoted in this list are for good quality of stock selected by us. Stock personally selected by purchaser will be charged for according to size and value of stock selected.

QUANTITY. Lots of five of any one variety at the rates of ten. Twenty-five at the rate of 100.

PACKING CHARGES. All goods are thoroughly packed, thus avoiding risk, and delay in transit. Packing charges are made at actual cost.

TERMS. Cash with order, one-third cash for C. O. D. or sight draft orders. Unknown correspondents who wish to obtain credit should name three concerns with whom they have established credit relations, which if found satisfactory, the usual credit will be extended them.

Our credit plan is 1% for cash in 10 days, Cash in 30 days. Interest of 2% will be charged if bills are left unpaid after 30 days. 6% will be added to bills left unpaid after 60 days.

We make deliveries by auto truck to points within a radius of forty miles of Cleveland, which we think is the most economical way of shipping as the cost of boxing, freight and cartage is eliminated and the stock is delivered to the Purchaser shortly after being dug.

Prices contained in this list include balling and burllapping of all Coniferous Stock and Evergreen Shrubs which are customarily shipped with balls of earth. For balling of any deciduous stock a charge at actual cost will be made.
